Hamburg, 14 February 2023

Dear members of the Haemophilia society of Belgium!

After the COVID-pandemic, the German Haemophilia Society (DHG) is starting many new events to bring young people in our organization together. This happens within Germany, but also in Europe.

From **3 April to 7 April 2023** the DHG-Youth organizes a tour with a sailing boat on the IJsselmeer and/or the Wadden Sea. The youth, organizing this event, would be very happy if two to three young people from our neighboring countries, the Netherlands and Belgium, would also take part in this sailing trip.

The participant

- has a currently working e-mail account
- is between 14 and 30 years old
- has hemophilia, von Willebrand disease or any other bleeding disorder
- is a carrier of a blood clotting disorder
- is a friend or sibling of a participant
- is parent of a child with a bleeding disorder

- has sufficient factor or other necessary medication available for the duration of the tour
- can treat himself/herself

Participation costs around **120 - 150 EUR**. Meals are included in the price. You have to organize your arrival and departure yourself. The city of departure has not yet been precisely determined. It depends on the number of participants and the route. Possibly Harlingen, Lemmer, Stavoren or similar.

We know that there is not much time. Nevertheless, we hope for a quick answer until **28 February 2023**. Please contact our DHG-office in Hamburg by phone +49-40-672 2970 or by email to dhg@dhg.de.

We are looking forward to see you. Ahoy!
